

What in the world is a **zero carbon** future?

Join us **January 24** for a panel discussion on the **Zero Carbon Initiative**

Friday, January 24 at 2 pm
Ventana Room 241B, ASU Memorial Union

Join us for a **panel**-style discussion with Daniel Hunter, Dave Brixen, Mark Wilhelm, and Nicholas Brown.

Seating is limited. Please **RSVP** to reserve your seat.

Light refreshments will be served.

**Panelist bios on back.*

Panel Discussion: Zero Carbon Initiative

Arizona State University has announced a strategic partnership with Ameresco, Inc. and the Rocky Mountain Institute to achieve climate neutrality goals by 2025. Panelists will cover a range of topics, answer FAQs, and take questions from the audience.

 **@ASULightWorks** **#ASUZeroCarbon**

Panel to be hosted by director **Peter Byck** of *Carbon Nation*

RSVP online at asuzerocarbon.eventbrite.com

Daniel Hunter

Account Executive, Ameresco

Daniel Hunter is an Account Executive at Ameresco with primary responsibilities to assist clients in implementing programs that meet technical/engineering design, legal, administrative and financial objectives. He is currently involved in helping ASU to implement multiple phases of facility and infrastructure upgrades and renewable energy projects involving 158 buildings covering over 11 million square feet of the University infrastructure. These projects have included the installation of over 14 MW of distributed solar photovoltaic and solar thermal projects at the four ASU campuses.

Mark Wilhelm

Director, Carbon Neutrality Initiatives, Ameresco

Mark Wilhelm has devoted more than three decades to sustainability issues with a primary focus on energy-efficient building design, renewable energy technologies and market transformation. He has an extensive background in environmental planning, architecture, engineering, and solar technology. He is leading the strategic alliance with Ameresco, Rocky Mountain Institute, and ASU. Mr. Wilhelm earned a MS in 1982 from Arizona State University after completing a BA at the University of Massachusetts, Amherst.

Dave Brixen

Vice President, Facilities Development and Management, ASU

Dave Brixen's areas of responsibility include Facilities Management, Capital Programs Management and the Office of the University Architect, as well as the business and administrative support operations within Facilities Development and Management. Mr. Brixen earned a Bachelor of Science degree in Accounting from Arizona State University in 1977. He began his professional career at Arizona State University in 1977 as an accountant in the comptroller's office.

Nicholas Brown

Director, University Sustainability Practices and Sustainability Scientist
Global Institute of Sustainability, ASU

Nicholas Brown came to Arizona State University from the University of Arkansas, where he served since 2007 as Director for Campus Sustainability and as adjunct professor of geosciences. Nick previously worked in Arkansas with the Winrock International Institute for Agricultural Development, the National Center

for Appropriate Technology, and as the solar coordinator for the state's Department of Energy. His work leading the development of sustainable forestry standards for the Forest Stewardship Council led him to several places around the globe, including Canada, Spain, the United Kingdom, Indonesia, China, Peru, Bolivia, and Mexico.
